

H.E. Dr. Mostafa Madbouly
Prime Minister
Arab Republic of Egypt

PROFESSIONAL EXPERIENCE

30 years of extensive experience in urban planning

- ❖ **June 2018 – Present:** Prime Minister of Egypt
- ❖ **March 2014 – Feb. 2019:** Minister of Housing, Utilities and Urban Communities. Major projects under his direct supervision included:
 - Planning and Construction of Egypt's New Administrative Capital, Alamein City on the Mediterranean Coast, El Mansoura New City, and an additional 17 new cities all over Egypt (part of national urban plan 2052)
 - The First National Housing Project in Egypt offering 700,000 units for low-income citizens. The First Middle Income Housing Project introduced by the Government of Egypt, offering around 400,000 units in new urban communities.
 - The National Plan to remove all unsafe settlements, targeting construction of 200,000 units around Egypt, including upgrades of informal settlements on the outskirts of cities.
 - The construction of 3 major roads within the national road plan.
 - Adoption of the National Plan for Rural Sanitation to reach all Egyptian villages. Coverage increased from 11 percent to 35 percent over four years. This project, and other housing and utilities projects around the country, cost approximately \$65 billion.
- ❖ **November 2012 – February 2014:** Regional Director for UNHABITAT Regional Office for Arab States and Africa, managing all programs and projects run by UNHABITAT in the Arab nations.
- ❖ **September 2009 – November 2011:** Chairman of the General Organization for Physical Planning (GOPP), Ministry of Housing, Utilities and Urban Development. Major projects included Egypt's National Urban Plan till 2052, Greater Cairo Region Urban Strategic Plan till 2050, Alexandria Urban Development Plan till 2032, Strategic Plans for the North Coast, Sinai Peninsula, North West Suez Gulf area, and Upper Egypt.
