## 2023 Ranking: 21st Largest Export Market in MENA for U.S. Goods

In 2023, there was a 83.87% decrease in goods exports from the United States to Palestine. Israel's border control over Palestinian territories reduces its ability to trade within the international market. Palestine's top imported sectors were Chemicals, Computer & Electronic Products, Miscellaneous Manufactures, Agricultural Products, and Transportation Equipment.

The data in this publication are drawn from the U.S. Bureau of the Census using the latest U.S. export information (June 2024). Export numbers may understate total U.S. exports because country-specific information for some products (e.g., mining, forestry, fishing, and waste and scrap) is not available.
